GET TO KNOW THE BRAND

Garden architecture created with passion.

Gutroof is a brand that redefines outdoor spaces.
We combine elegance with innovation to create pergolas and awnings that harmoniously complement architectural designs. For years, we have been setting new standards in the industry, constantly improving our products to make them even more beautiful, durable and functional.

Perfection is our philosophy. We emphasise exceptional craftsmanship, attention to detail and technologies that transform terraces and gardens into places of unparalleled comfort and tranquillity. With us, outdoor spaces become true oases of relaxation and luxury.

With Gutroof, you create spaces that increase the value of every investment.
Our solutions guarantee quality, aesthetics and functionality appreciated by the most demanding business partners.

Gutroof
The brand chosen by those who value quality, originality and style at the highest level.

CLASSIC

wind resistance
class 1

The Classic awning combines solid construction with timeless design.

Designed for everyday comfort, it instantly creates a pleasant shaded area on your terrace or balcony. Simple lines, refined details and durable materials mean that it not only effectively protects against the sun, but also retains its elegant appearance for years to come. Ideal for those who value classic style and functionality in one. The Classic awning is the choice for those who value functionality and classic aesthetics.

- Solid base, smooth operation
- 280 g/m² fabric with PU coating
- Angle adjustment
- Simple, reliable operation
- Timeless colour finishes
- Sizes that easily fit into any space

PREMIUM

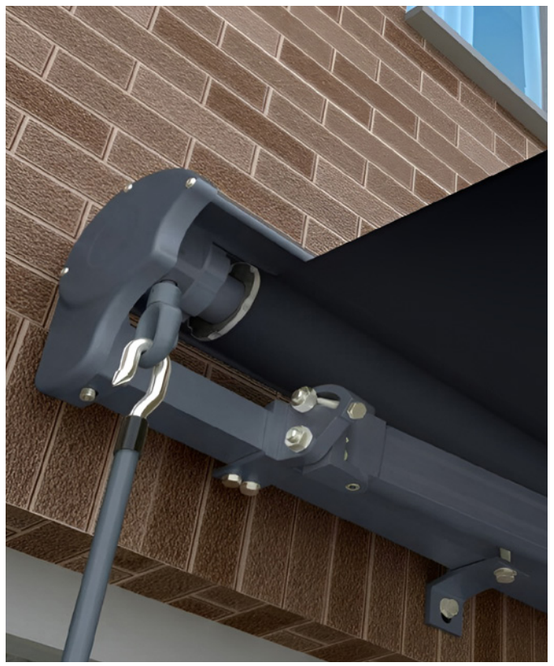

wind resistance
class 1

Premium is a series for those who pay attention to detail while maintaining high functionality.

Minimalist form, concealed mounting elements, consistent colour scheme – everything designed to make the awning an integral part of modern architecture. The discreetly built-in semi-cassette protects the fabric from dirt and moisture, while emphasising the clean lines of the structure. Depending on your needs, the Premium series offers a manual version – operated by a crank handle – or an electric version – with a remote control. Both ensure reliable operation and smooth handling.

- Semi-cassette protecting the fabric
- 280 g/m² fabric with PU coating
- Angle adjustment
- Stable construction: steel torsion bar + aluminum arms
- Two operating options: crank handle or electric drive
- Sizes that easily fit into any space

DELUXE

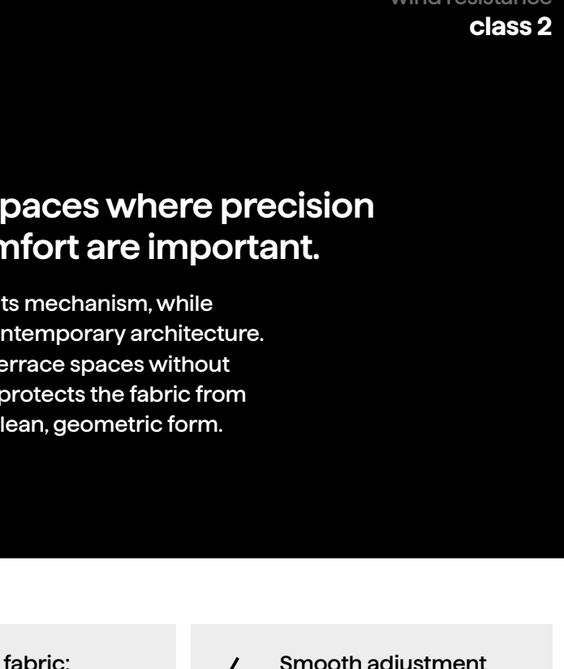

wind resistance
class 2

It has been designed for modern spaces where precision of form and maintenance-free comfort are important.

The enclosed cassette design protects the fabric and its mechanism, while creating a cohesive, minimalist form that fits in with contemporary architecture. Deluxe series awnings are ideal for covering modern terrace spaces without disrupting their components. The integrated cassette protects the fabric from the elements and allows the structure to maintain its clean, geometric form.

- Full cassette – with minimalist aesthetics
- Premium fabric: UV and rain protection
- Smooth adjustment of the canopy angle
- Quiet, smooth mechanism operation
- Automatic drive and convenient remote control
- LED version – provides comfort after dark

DELUXE PLUS

wind resistance
class 2

Deluxe Plus is an awning that creates a comfortable space at any time of day – even after dark.

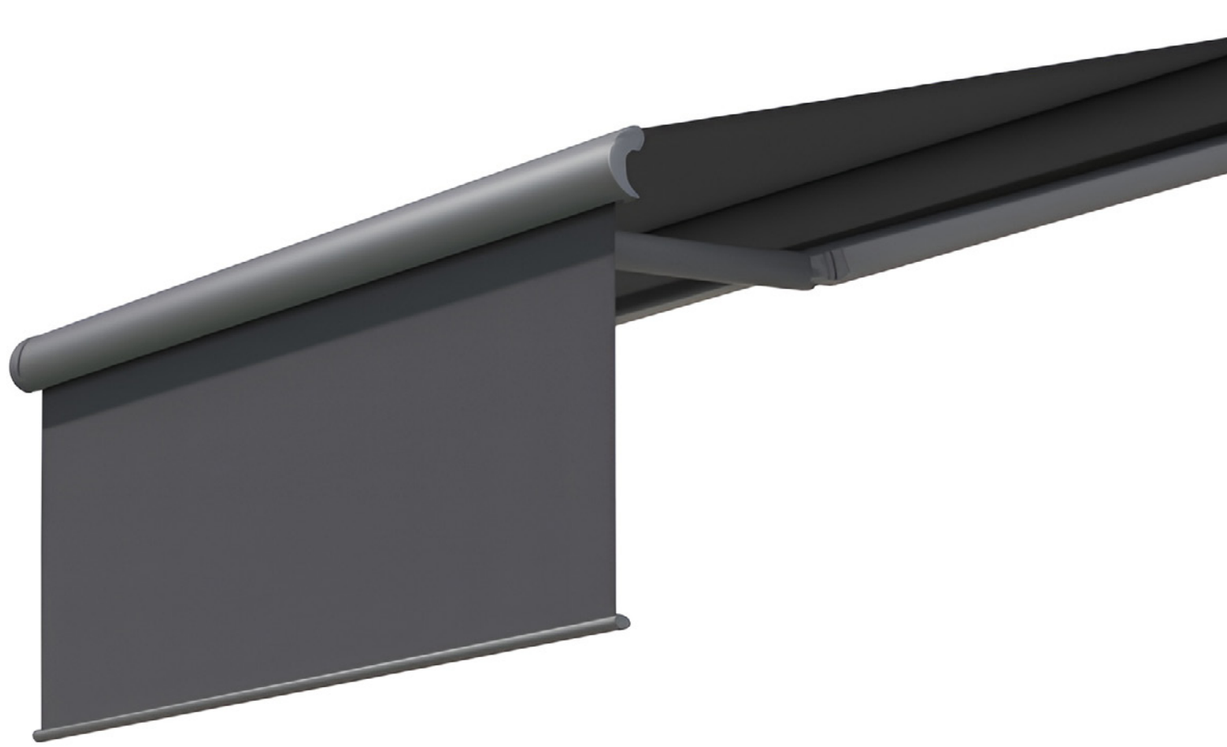

A modern form, integrated LED lighting and carefully selected finishes create a whole that attracts attention but does not dominate its surroundings. This is a solution for spaces where not only protection matters, but also refined detail.

Deluxe Plus fits well both on home terraces and in commercial spaces, such as modern restaurant gardens.

- Compact aluminium cassette
- PU-coated fabric, moisture and UV resistant
- Solid construction
- Remote control and LED lighting
- 1.5 m long valance, manually extended

PRIME

wind resistance
class 2

The Prime series was created with modern architecture, precision-crafted details and high functionality in mind.

The matte grey shade is in line with current trends, and the built-in LED lighting creates a cosy atmosphere after dark.

Reinforced arms ensure the stability and durability of the awning, while a sealed front bar provides additional protection for the fabric against moisture. This solution is ideal for those who value functionality but do not want to compromise on aesthetics.

- Reinforced arms
- Premium fabric: UV and rain protection
- Aluminium construction
- Sealed front placket to protect the fabric
- LED lighting that creates atmosphere
